

Long-Term Care Residents & Hospice of Wichita Falls

Hospice of Wichita Falls has brought comfort, compassion and expert end-of-life care to more than 9,000 North Texas patients and their families since 1985. We offer the same quality care to residents in long-term care facilities, too, by providing expert pain management, spiritual and psychosocial support at more than 20 facilities.

The **Hospice of Wichita Falls** team work with you and your family and the long-term care team to determine when, how often and what type of care you receive.

Hospice of Wichita Falls also provides the following services to long-term care residents as a Medicare and Medicaid benefit at no out-of-pocket cost:

- Medications related to the life-limiting illness that provide comfort
- Medical equipment and disposable supplies that relate to the life-limiting illness, such as catheters, dressings, wound care supplies, adult protective undergarments, bed pads, etc.

Our staff will not only support you and your family, we also partner with the facility staff on how to address issues important to residents at the end of life, such as pain and symptom management. Support services may include comfort measures, advance directives and ways to manage personal grief.

Our staff participates in family and resident council meetings hosted by the facility. We also sponsor grief and loss programs, caregiver support groups and memorial services for families, facility staff and the community.

*The Community's Choice
Since 1985*

~ continued on the back ~

Our HOSPICE OF WICHITA FALLS team includes:

- Nurses who specialize in assessing and managing pain and symptoms
- Certified nurse aides who provide extra baths and additional personal care
- Social service professionals who assist residents and families with end-of-life concerns and services
- Chaplains who provide emotional and spiritual support
- Physicians who work with the resident's attending physician and the facility's medical director to provide the best possible comfort care
- Physical, speech and occupational therapists and dietitians who are available as needed
- Volunteers who give of their time to provide companionship for residents and their families
- Bereavement specialists who offer support to survivors for up to twelve months following a loss
- Consistent care provided by the same **Hospice of Wichita Falls staff**

The **Hospice of Wichita Falls** team makes visits as determined with the family, physician and nursing facility staff, with 24-hour on-call availability. **Hospice of Wichita Falls** is a community health care provider that collaborates with facility staff to ensure the resident's optimal quality of life by enhancing the care already provided by the facility.

For more than 20 years, **Hospice of Wichita Falls** has been the local leader in end-of-life care – here to support you and your family. We are available for admissions or referral information 24 hours a day, seven days a week.

Hospice of Wichita Falls is a nonprofit, community health care provider.
